

Compost

Banana peel

Leaves

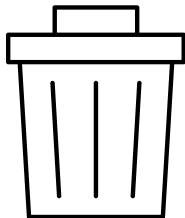

Recycling

Plastic bottle

Soda can

Trash

Burger

Stick*

For composting: newspaper, shred into small pieces before adding to your pile.

Newspaper

Styrofoam recycling depends on your region; it is currently not accepted in Louisville.

Styrofoam

**It's good to be sparing if adding sticks to compost because they take a LONG time to decompose. They can be chipped or burned (safely) to aid in decomposition. For large pieces, bundle them together to be picked up with yard waste day.*
